Adobe Suite

Figma

AutoCad

HTML, CSS, Java Script

Python, Swift

Photography

Prototyping

Digital Art

Education

University of Colorado

BA in Art Practices
Minor in Creative Technology and Design

Experience

Freelance Designer - 2023 to present

Since graduation I have been working as a freelance designer. My biggest client at the moment is Heart of Racing, a charity racing team.

Doordash Driver - 2019 to 2022

During college I supported myself by driving for DoorDash. During this experience I learned how to manage my own time and gained some customer service skills.

Senior Yearbook Editor - 2015 to 2017

I began working on the yearbook in middleschool and continued throughout highschool. It was during this time that I began developing my design skills.

Broken Records - 2015 - 2017

In highschool, I spent a lot of time working with a club called Broken Records. Broken Records is a record label that posts and promotes high-school student's original music. We would also run a open mic at the end of every semester. I helped support the club finacially by producing and selling merch and posters.
